

2007 Cotton Replant Refund Guidelines

American Cotton Breeders, Inc. (Americot) will provide **FREE** Americot-brand cotton seed to farmers *who replant a failed or lost stand of Americot-brand cotton with Americot-brand cotton seed*. This program is in effect on all Americot cotton seed varieties except conventionals, for the 2007 planting season.

Farmers seeking a Replant Refund should contact Americot before tilling or replanting any fields associated with a Replant Refund request. On-site verification and documentation by an Americot Representative must be completed prior to replanting in order to be eligible for free replant seed.

Following verification of replanting with Americot-brand seed, Americot will credit farmer's seed supplier. Credit to Supplier will be for units necessary to replant, but may not exceed quantity used to plant the failed or lost stand. Supplier will issue credit to Farmer for same quantity. Net result should be for Farmer to receive the Replant Units at no additional purchase expense.

Americot makes no warranty or guarantee regarding availability of specific varieties for replanting purposes. *If the original-planted variety is not available another Americot-brand cotton variety must be substituted for replanting purposes in order for farmer to be eligible to receive a Replant Refund on the replanted units.*

~~Recipients of free replant seed under the terms of this program are responsible for the payment of any and all technology fees associated with the free seed received.~~

Claims must be submitted to Americot no later than July 15, 2007. Program will be discontinued thereafter.
