

Excerpted from 2021 Phytogen Policy Manual to provide cottonseed performance program details for 2021 Cottonseed Replant and Crop Loss programs.

6.0 PHYTOGEN® COTTONSEED PERFORMANCE INQUIRY POLICY

PhytoGen offers replant, crop loss and drought assistance to growers as outlined in our service policies below.

- Contact your local PhytoGen Cotton Development Specialist (CDS) and/or PhytoGen Territory Manager (TM) to
 evaluate any performance inquiry prior to making any commitments to the grower.
- Replant, crop loss and drought claims on all PhytoGen® base treated and/or premium factory seed treatments and germplasm will be handled in conjunction with the total PhytoGen cottonseed product as outlined below.
- No credits will be issued for lack of satisfaction due to yield, agronomics, fiber quality or trait performance without the involvement and approval of the PhytoGen Territory Manager or PhytoGen Cotton Development Specialist.
- All performance inquires and/or claim decisions are made in alignment with our service policies and are at the sole discretion of PhytoGen.

6.1 PHYTOGEN® COTTONSEED REPLANT POLICY

REPLANT PROGRAM ELIGIBILITY	
Cotton Replanted to Cotton	Other Crops Replanted to Cotton or Cotton Replanted to Other Crops
Reimbursement for 75% of the Suggested Retail Price of the replanted cottonseed units (1st planted crop units)	Reimbursement for 75% of the Suggested Retail Price of the originally planted lost crop units when replanting to a different crop
Qualifying States: AL, AR, AZ, CA, FL, GA, KS, LA, MS, NC, NM, OK, SC, TN, TX, VA	Qualifying States: AL, AR, FL, GA, KS*, LA, MS, NC, NM, OK, SC, TN, TX, VA
Eligible Products*:	
PhytoGen® brand cottonseed , Pioneer® brand corn, soybeans, and sorghum products	

TO QUALIFY FOR THE PHYTOGEN® BRAND REPLANT POLICY, THE FOLLOWING CONDITIONS APPLY:

- This 2021 Replant Policy is only valid in the qualifying states mentioned above.
- Crop replant is due to a product failure due to natural causes within 60 days of planting (including but limited to flooding, soil crusting, wind, hail, and animal exposure) when demonstrating established practices for local growing regions.
- A grower loses a crop and replants a crop within the same planting year on the same farm in which the claim was filed; both the lost and replanted crop must be a seed brand of Corteva Agriscience.
- The appropriate Corteva Agriscience Territory Manager is notified within 60 days of the original planting AND prior to replanting or destruction of the original lost crop.
- The grower, retailer, or agent promptly provides proof of purchase to support the claim. The proof of purchase is the invoice to the grower for the original seed purchased as well as the replanted units. This documentation must include date, retailer/agent name and address, grower name/address, and hybrid/variety respective quantities.
- Any "downstream" seed treatment applied by an authorized retailer will not be covered by Corteva Agriscience.

- Replant seed will be subject to availability and will be of a reasonable maturity for the given conditions. Corteva Agriscience is not obligated to furnish specific hybrids or varieties or seed size for replanting.
- PhytoGen cottonseed replanted to PhytoGen cottonseed must be to like technology and treatment.
- This replant policy is only offered for the first replanting of the season and does not cover multiple replant situations.
- Replant claims for PhytoGen cottonseed replanted to PhytoGen cottonseed are calculated on the 1st planted PhytoGen product.
- Replant claims to a different crop are calculated on the originally planted product
- Corteva Agriscience reserves the right to audit retailers/ agents sales and replant claims at any time.
- The grower is responsible for any additional expenses not covered by the replant policy.
- Final Replant Submissions must be submitted no later than July 30, 2021 to a PhytoGen Territory Manager.

6.2 PHYTOGEN® COTTONSEED CROP LOSS POLICY

CROP LOSS ELIGIBILITY:

- Only applicable on fields originally planted to PhytoGen® cottonseed in 2021 season.
- Crop loss refers to the establishment of a satisfactory stand of PhytoGen cottonseed within 60 days after planting. Crop Loss does NOT refer to stand reductions and/or yield loss due to conditions or perils such as disease and pests.
- A PhytoGen Territory Manager, PhytoGen Cotton Development Specilaist, and/or an authorized PhytoGen retailer must inspect and validate all grower crop loss fields and claims.
- Crop must be destroyed after submitting a claim and validated by PhytoGen representative.
- Final Crop Loss Submissions must be submitted no later than July 30th, 2021 to a PhytoGen Territory Manager.

VERIFIED PHYTOGEN CROP LOSS:

Reimbursement of 65% of the Suggested Retail Price of originally planted PhytoGen cottonseed.

ADDITIONAL PROGRAM DETAILS:

- Crop loss claims do not apply to any Corteva replanted acres.
- The grower has the appropriate and valid trait licenses including but not limited to a Corteva Agriscience Technology Use Agreement (TUA).
- Crop Loss claims received after the date listed above will not be eligible for reimbursement.
- The insufficient stand of PhytoGen® cottonseed must occur in an area of 10 or more acres before any claim may be filed.
- The retailer or grower promptly provides proof of purchase to support the claim. The proof of purchase is the invoice
 from the retailer to the grower for the original seed purchase, as well as the replanted units. This documentation must
 include date, retailer name and address; grower name and address; and the variety and quantity purchased.

- The grower promptly provides all necessary information requested by the retailer and PhytoGen to complete the claim
 including seed variety, planting date, crop protection products used or other pertinent information that may have
 affected the crop stand.
- If PhytoGen cottonseed receives an additional "downstream" seed treatment, it must be applied by an authorized PhytoGen retailer. Anything applied to PhytoGen cottonseed outside of our production facility or our authorized retailers, will void the PhytoGen Crop Loss Policy.
- The PhytoGen Territory Manager completes all necessary documentation and submits the claim for final approval and reimbursement.

RECONCILIATION AND PROCESS:

- Reimbursement for a Crop Loss Claim will be in the form of a check to the retailer or grower.
- PhytoGen reserves the right to audit dealer sales and crop loss or drought claims at any time.
- · Reimbursement and payment decisions are at the sole discretion of PhytoGen and shall be final and binding.
- The grower is responsible for any additional expenses not covered by the Crop LossPolicy.
- All replant and crop loss units will be deducted from the 2021 PhytoGen Retailer Programs.

6.3 PHYTOGEN COTTONSEED SOUTHWEST DROUGHT RELIEF POLICY

VERIFIED DROUGHT RELIEF (ABANDONED ACRE):

Reimbursement of 65% of the Suggested Retail Price of originally planted PhytoGen® cottonseed.

VERIFIED DROUGHT RELIEF (HARVESTED ACRE):

Reimbursement of 75% of the Suggested Retail Price of originally planted PhytoGen cottonseed.

DROUGHT RELIEF ELIGIBILITY:

- Only on fields originally planted to PhytoGen cottonseed in the Southwest geography (Kansas, New Mexico, Oklahoma, Texas).
- Applicable to crop losses and/or specific yield reductions on fields of PhytoGen cottonseed incurred due to drought conditions on certified dryland cotton acres.
- A PhytoGen Territory Manager, PhytoGen CDS, and/or an authorized PhytoGen retailer must inspect and validate all grower drought relief fields and claims.
- PhytoGen drought relief claims must include Federal Crop Insurance documentation that verifies drought as the reason
 for the claimed acres yielding less than 175lbs/acre on certified dryland acres and harvested yield or documentation of
 unharvested field's insurance adjustment due to drought.
- Abandoned acres are defined as those fields of PhytoGen cottonseed that are NOT harvested and have been adjusted through an insurance claim for less than 175lbs/acre.
- Harvested acres are defined as those fields of PhytoGen® cottonseed that are harvested, yielded less than 175lb/acre, and have been adjusted through an insurance claim.
- Final Drought Relief claims must be submitted to a PhytoGen Territory Manger no later than January 20, 2022.
- Drought Relief claims received after the date listed above will not be eligible for reimbursement.

ADDITIONAL CLAIMS RULES:

- The grower has the appropriate and valid trait licenses including but not limited to a Corteva Agriscience Technology Use Agreement (TUA).
- The insufficient stand of PhytoGen® cottonseed must occur in an area of 10 or more acres before any claim may be filed.
- The retailer or grower promptly provides proof of purchase for the original and/or any subsequent seed purchases to support the claim. This documentation must include date, retailer name and address; grower name and address; and the variety and quantity purchased. PhytoGen reserves the right to audit dealer sales and claims records at any time.
- The grower promptly provides all necessary information requested by the retailer and PhytoGen to complete the claim including seed variety, planting date, crop protection products used or other pertinent information that may have affected the crop stand.
- If PhytoGen cottonseed receives an additional "downstream" seed treatment, it must be applied by an authorized PhytoGen retailer. Anything applied to PhytoGen cottonseed outside of our production facility or our authorized retailers, will void the PhytoGen Claim Policy.
- Partial Drought Relief submissions on acres that also claim damage under Multiple Peril Crop Insurance coverage,
 which have been affected and previously claimed damage resulting in yield reductions attributable to wind, hail,
 flood, disease, pests or any other reason(s), are not eligible for settlement under the PhytoGen Drought Relief policy.

CLAIMS RECONCILIATION PROCESS:

- The PhytoGen Territory Manager completes all necessary documentation and submits the claim for final approval and reimbursement.
- Claim reimbursement will be in the form of a check to the retailer or grower.
- Reimbursement and payment decisions are at the sole discretion of PhytoGen and shall be final and binding.
- The grower is responsible for any additional expenses not covered by the PhytoGen Drought Relief policy.
- All claims units will be deducted from 2021 PhytoGen Retailer Programs.
